Subject: Materials for CO/MT Trip

All:

Attached please find the background material and talking points we put together for the Administrator's visit to Montana and Colorado next week. The purpose of the trip is to visit several Superfund sites in Montana and Colorado as well as visiting two tribes in Montana. We will spend a couple of hours with the Consolidated Salish & Kootenai Tribes on their reservation and we will then meet with the leadership of the Blackfeet tribe for lunch.

At the invitation of Senator Steve Daines we will be visiting two Superfund sites in Montana, the Silver Bow/Butte site and the Anaconda site and then host community meetings in both towns. In Colorado we will also be visiting two Superfund sites the Rocky Mountain Arsenal Wildlife Refuge and the Rocky Flats Wildlife Refuge. Along with these activities the Administrator will be meeting with staff from our Montana office and participating in an all-hands meeting in Denver.

The material attached in order is; the agenda for the trip, suggested talking points for different parts of the trip, and background material for the different tribes and sites that we'll be visiting. We did not, but still can prepare talking points for the all-hands. After speaking with different regions that have held all hands meeting we were told that the Administrator has prepared remarks he likes to use. If that's not right please let me know and we can quickly prepare something.

I wanted to share with all of you for your review and comment. If you have questions please let me know.

I hope everyone is well,

Doug
